

Amendment Dated April 26, 2005

Amendments to the Specification:

Please add the following new paragraph and header after the title, before the first paragraph [0001] of the application:

Related Applications:

The present application is a national phase application of PCT/FR2004/000230, which in turn claims the benefit of priority from French Patent Application No. 03 01319, filed on February 5, 2003, the entirety of which are incorporated herein by reference.

Field of the Invention:

Please add the following new paragraph header after the first paragraph [0001] and before the second paragraph [0002] of the application:

Background of the Invention:

Please replace paragraph [0002] starting on line 5 of page 1 of the specification as filed and replace it with the following edited paragraph [0002]:

~~More precisely it concerns an~~ An optical detector device for a meter, comprising a consumption indicator formed of a rotating disc provided with at least one so-called active sector and optical elements of emitting and receiving type opposite said disc, whose received optical signal is processed to infer at least the number of rotations of said disc. Said device is known from patent EP 0 380 794.

Amendment Dated April 26, 2005

Please add the following new paragraph header after paragraph [0005] ending on line 28 of page 1 of the specification as filed and before paragraph [0006] starting on line 29 of page 1 of the specification as filed:

Objects and Summary of the Invention:

Please add the following new paragraph header after paragraph [0016] ending on line 15 of page 3 of the specification as filed and before paragraph [0017] beginning on line 16 of page 3 of the specification as filed:

Brief Description of the Drawings:

Please add the following new paragraph header after paragraph [0023] ending on line 30 of page 3 of the specification as filed and before paragraph [0024] beginning on line 31 of page 3 of the specification as filed:

Detailed Description:
